

OhMiBod: Intertwining Mind, Body and Music

The first insertable vibrator that moves to your favorite tunes

The minute you see OhMiBod, the first insertable music driven vibrator on the market, you want to touch it, to explore it. Its elegant design is so sleek, so smooth, so sexy.

Vibrates to Your Beat Listening to your favorite music and actually feeling the corresponding vibes quickly transports you to a place where music, mind and body truly “come” together for explosive results. OhMiBod’s integrated audio circuitry converts the beat and rhythm of your tunes into vibrations, creating a stimulating, non-repetitive vibration while you listen. Although optimized for iPod® products, it also accepts input from other MP3 players. Volume controls the intensity of the vibrations, so the higher you turn it, the more intense the vibes!

OhMiBod’s audio enabled microchip is seamlessly integrated into its elegant design. All you have to do is attach your music player of choice to the 3’ freedom cord using the enclosed splitter and you are set for take off.

Two Vibrators in One! OhMiBod measures 7” long (5 1/2” insertable) by 1 1/8” wide and is molded from premium grade hypoallergenic white non-toxic, non-porous plastic with chrome finishing...very iPod®esque. Its powerful motor, which softly purrs while providing intense rhythmic vibrations, is powered by 2 AA batteries. A universal headphone connector is integrated into the OhMiBod design. In addition to its good looks, OhMiBod is adaptable. It can easily be converted into a manual mode vibrator by putting on the special end cap it comes with. OhMiBod is two vibrators in one!

OhMiBod Enthusiasts Unite Via OhMiBod.com's blog, "OhMiBlog", OhMiBod enthusiasts whether they are vibrator novices or aficionados, can instantly and anonymously, join a fun, hip community centered around enhancing the OhMiBod experience. It provides a safe place for them to write about their experiences, trade tips, share their favorite playlists and more. Users can search for OhMiBod playlists they are in the mood for by using OhMiBod as a search term in the iMix™ section of the iTunes™ music store. If they want to buy a playlist or simply get some inspiration, they can do so thanks to the direct links from www.OhMiBod.com to the iMix™ section of iTunes™. If they don't see something that tickles their fancy, they can upload their own iMix™ and share it with others.

Where DJs Come to Play In addition to being powered by music, OhMiBod empowers DJs around the world. OhMiBod.com 's "Club Vibe" section provides a place where DJs can share mixes they've created specifically for OhMiBod's community of users. Participating DJs are invited to send OhMiBod their music, bio, photo and upcoming gigs. In exchange, OhMiBod will post their profile and music in "Club Vibe", where it will be available to OhMiBod users.

-over-

500 Strong Beta Team OhMiBod has, through word of mouth and the Internet, built a 500 strong beta team, the members of which are very vocal about sex and comfortable with their sexuality. The team provided wonderful input regarding OhMiBod's initial design, name and messaging and will continue its role as the OhMiBod team creates new products.

Want it? OhMiBod retails for \$69 and is available via OhMiBod.com and select resellers. It comes packaged with a 3 ft "freedom cord", universal splitter, a multi-speed end cap for use without a music player and a hot-pink velvet privacy pouch. A selection of fun OhMiBod accessories™, including the world's first iPod® mini garter, a hot pink Softskin sleeve, personal lubricants and toy cleaners are also available in the OhMiBod.com store.
